4. FIRST-AID MEASURES

First Aid Measures

Eye Contact	Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Immediately call a poison center or doctor/physician.
Skin Contact	IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower. Wash contaminated clothing before reuse. Get medical attention if symptoms occur.
Inhalation	Remove to fresh air. If breathing is difficult, give oxygen. If not breathing, give artificial respiration. Loosen tight clothing such as collar, tie, belt, or waistband. Call a physician immediately.
Ingestion	Do not induce vomiting, unless directed by medical personnel. Get immediate medical attention. Never give anything by mouth to an unconscious person. If person is alert, give 8-16 ounces of water to dilute the ingested material.

Most important symptoms and effects

Symptoms	Causes severe skin burns and eye damage. Inhalation may cause irritation or burning to mucous membranes. Ingestion may cause severe burns to mouth, throat or stomach. Inhalation may aggravate asthma.
-----------------	---

Indication of any immediate medical attention and special treatment needed

Notes to Physician	Treat symptomatically. Exposed person should be observed for 48 - 72 hours for delayed onset of pulmonary edema.
---------------------------	--

5. FIRE-FIGHTING MEASURES

Suitable Extinguishing Media

Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

Unsuitable Extinguishing Media Not determined.

Specific Hazards Arising from the Chemical

May intensify fire; oxidizer. Corrosive material. Heating or evaporating to dryness could lead to formation of explosive compounds.

Hazardous Combustion Products May produce hazardous fumes or hazardous decomposition products. Chlorine gas.

Protective equipment and precautions for firefighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear. Cool exposed containers with water to prevent rupturing.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

Personal Precautions	Use personal protective equipment as required. Ventilate affected area. Remove all sources of ignition.
For Emergency Responders	Corrosive hazard. Wear protective gloves/clothing and eye/face protection.
Environmental Precautions	Prevent from entering into soil, ditches, sewers, waterways and/or groundwater. See Section 12, Ecological Information. See Section 13: DISPOSAL CONSIDERATIONS.

Methods and material for containment and cleaning up**Methods for Containment**

Prevent further leakage or spillage if safe to do so.

Methods for Clean-Up

Absorb with inert material and then place in suitable container for chemical waste. Continue to keep damp. If allowed to dry, dried materials can ignite in contact with combustible materials. In order to avoid the risk of contamination, the recovered product must not be returned to the original tank/container. Place in a covered and labeled container.

7. HANDLING AND STORAGE

Precautions for safe handling**Advice on Safe Handling**

Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin, eyes or clothing. Use personal protection recommended in Section 8. Wash contaminated clothing before reuse. Wash face, hands and any exposed skin thoroughly after handling. Do not breathe dust/fume/gas/mist/vapors/spray. Do not eat, drink or smoke when handling this product.

Conditions for safe storage, including any incompatibilities**Storage Conditions**

Store locked up.

Incompatible Materials

Acidic materials. Reducing agents. Combustible material.
